About School of Engineering, JNU

The School of Engineering was founded in 2018, offering a program of 5-year integrated dual degree courses in Computer Science and Electronics and Communication Engineering. Recently, the school celebrated the successful placement of its inaugural batch, and the statistics are indicative of a promising future. The students' placements have been exceptional, reflecting the high-quality education and training provided by the school. With this remarkable start, the School of Engineering is poised to become a leading institution in producing skilled professionals in the fields of computer science and electronics and communication engineering.
